

SEO Practice Workbook

Plan one useful page for your audience.

Use this sheet alongside the lessons. Choose one topic and write brief, clear answers.

1. Understand the reader

Who is the page for, and what are they trying to do?

2. Choose a search question

Write a phrase your reader might use to find help with that task.

What answer would make the page useful to them?

3. Draft the page

Page title

Three headings that help the reader find the answer

4. Add useful connections

Name one related page or resource you would link to, and explain why.

5. Check your work

- ☐ The title describes what this page helps the reader do.
 - ☐ The headings are clear, and the answer is easy to find.
 - ☐ The content is accurate, readable, and useful on a phone.
